

Claude Code Package Ecosystem (Feb 2026)

Companion to: *claude-code-use-cases-comprehensive.md* 9,000+ plugins
across 43+ marketplaces; 8,600+ MCP servers tracked

1. Top Plugins

Tier 1: Must-Know

Plugin	Stars	What It Does	Install
Superpowers	~42K	Enforces TDD (red-green-refactor), systematic 4-phase debugging, Socratic brainstorming, code review. 20+ battle-tested skills. Deletes code written before tests.	/plugin marketplace add obra/superpowers-marketplace then /plugin install superpowers@superpowers-marketplace
everything-claude-code	~49K	Complete config collection: agents, skills, hooks, commands, rules, MCPs. Anthropic hackathon winner.	Clone and adopt configs
Claude-Mem	Popular	Long-term memory – captures everything Claude does, compresses with AI, injects relevant context into future sessions.	/plugin marketplace add thedotmack/claude-mem then /plugin install claude-mem
Repomix	Popular	Packs your entire repo into a single AI-friendly file for analysis.	Via plugin marketplace
Taskmaster	Popular	AI-powered task management; ~70% token reduction in Core mode.	Install during setup
Frontend Design	Official	Bold design choices, typography, animations, color palettes. Auto-invoked for frontend work.	/plugin install frontend-design@claude-code

Tier 2: Deep Trilogy (Pierce Lamb)

3-part workflow that turns vague ideas into working, tested code:

Plugin	What It Does
<code>/deep-project</code>	Transforms vague software ideas into individual, ready-to-be-planned components
<code>/deep-plan</code>	Transforms components into detailed implementation plans via research, interviews, multi-LLM review
<code>/deep-implement</code>	Implements code from <code>/deep-plan</code> sections with TDD, code review, and git workflow

Tier 3: Notable

Plugin	What It Does
Hyperpowers (withzombies/hyperpowers)	Fork of Superpowers with beads task tracking
Gemini Tools (paddo/claude-tools)	Integrates Gemini model capabilities into Claude Code
Connect-Apps (ComposioHQ)	Links Claude to 500+ SaaS apps (GitHub, Slack, Gmail, Notion, Jira). Handles auth automatically.
Local-Review (Composio)	Parallel local diff code reviews using multiple agents with confidence scoring
Code Intelligence (LSP)	Built-in Language Server Protocol for jump-to-definition, find-references, type errors

2. MCP Servers

Databases

Server	Install Command
PostgreSQL (Bytebase dbhub)	<code>claude mcp add db -- npx -y @bytebase/dbhub --dsn "postgresql://user:pass@localhost:5432/db"</code>
Supabase	<code>claude mcp add supabase --env SUPABASE_ACCESS_TOKEN=token -- npx -y @supabase/mcp-server</code>
MongoDB (Official)	<code>claude mcp add mongodb -- npx -y @mongodb-js/mongodb-mcp-server --connectionString "mongodb+srv://..."</code>

Server	Install Command
Redis (Official)	claude mcp add redis -- npx -y @redis/mcp-server --url redis://localhost:6379
SQLite	claude mcp add sqlite -- npx -y @modelcontextprotocol/server-sqlite /path/to/db.sqlite
AnyDB (universal)	claude mcp add anydb -- npx -y anydb-mcp

Code & Version Control

Server	Install Command
GitHub (Official)	claude mcp add --transport http github https://api.githubcopilot.com/mcp/
Git	claude mcp add git -- npx -y @modelcontextprotocol/server-git
GitLab	claude mcp add gitlab -- npx -y @modelcontextprotocol/server-gitlab

Project Management

Server	Install Command
Jira/Confluence (Atlassian)	claude mcp add --transport sse atlassian https://mcp.atlassian.com/v1/sse
Linear	claude mcp add linear -- npx -y @linear/mcp-server
Asana	claude mcp add --transport sse asana https://mcp.asana.com/sse
Notion (Official)	claude mcp add --transport http notion https://mcp.notion.com/mcp

Search & Documentation

Server	Stars	Install Command
Context7 (Upstash)	~46K	claude mcp add context7 -s user -- npx -y @upstash/context7-mcp
Brave Search	Official	claude mcp add brave-search --env BRAVE_API_KEY=key -- npx -y @modelcontextprotocol/server-brave-search
Perplexity	Official	claude mcp add perplexity --env PERPLEXITY_API_KEY=key -- npx -y @perplexity-ai/mcp-server

Server	Stars	Install Command
Fetch (web content)	Official	<code>claude mcp add fetch -- npx -y @modelcontextprotocol/server-fetch</code>
MCP Omnisearch	Community	<code>claude mcp add omnisearch -- npx -y mcp-omnisearch (Tavily, Brave, Kagi, Perplexity unified)</code>

Browser Automation

Server	Install Command
Playwright (Microsoft)	<code>claude mcp add playwright -- npx -y @playwright/mcp@latest</code>
Puppeteer	<code>claude mcp add puppeteer -- npx -y @modelcontextprotocol/server-puppeteer</code>
Browserbase (cloud)	<code>claude mcp add browserbase -- npx -y @browserbasehq/mcp-server</code>

Communication

Server	Install Command
Slack	<code>claude mcp add slack -- npx -y @modelcontextprotocol/server-slack (needs SLACK_BOT_TOKEN + SLACK_TEAM_ID)</code>

Cloud & Infrastructure

Server	Install Command
AWS (45+ services)	<code>claude mcp add aws-core -- npx -y @awslabs/mcp-server-aws</code>
Cloudflare	<code>claude mcp add cloudflare -- npx -y @cloudflare/mcp-server-cloudflare</code>
Terraform (HashiCorp)	<code>claude mcp add --transport http terraform http://localhost:8080/mcp</code>
Kubernetes	<code>claude mcp add kubernetes -- npx -y kubernetes-mcp-server@latest</code>
Docker	<code>claude mcp add docker -- npx -y docker-mcp-server</code>

Payments & Commerce

Server	Install Command
Stripe (Official)	<code>claude mcp add --transport http stripe https://mcp.stripe.com</code>
PayPal (Official)	<code>claude mcp add --transport http paypal https://mcp.paypal.com/mcp</code>
HubSpot (CRM)	<code>claude mcp add --transport http hubspot https://mcp.hubspot.com/anthropic</code>

Design

Server	Stars	Install Command
Figma (Official)	~13K	<code>claude mcp add --transport http figma https://mcp.figma.com/mcp</code>

Monitoring

Server	Install Command
Sentry (Official)	<code>claude mcp add --transport http sentry https://mcp.sentry.dev/mcp</code>

Thinking & Reasoning

Server	Install Command
Sequential Thinking	<code>claude mcp add sequential-thinking -- npx -y @modelcontextprotocol/server-sequentialthinking</code>
Memory (knowledge graph)	<code>claude mcp add memory -- npx -y @modelcontextprotocol/server-memory</code>

Filesystem & Local

Server	Install Command
Filesystem	<code>claude mcp add filesystem -- npx -y @modelcontextprotocol/server-filesystem ~/Projects ~/Documents</code>
Desktop Commander	<code>claude mcp add desktop-commander -- npx -y @wonderwhy-er/desktop-commander</code>

Productivity

Server	Install Command
Airtable	<code>claude mcp add airtable --env AIRTABLE_API_KEY=key -- npx -y airtable-mcp-server</code>
Google Maps	<code>claude mcp add google-maps --env GOOGLE_MAPS_API_KEY=key -- npx -y @modelcontextprotocol/server-google-maps</code>
Time (timezone)	<code>claude mcp add time -- npx -y @modelcontextprotocol/server-time</code>

Key MCP Commands Reference

Command	Description
<code>claude mcp add <name> -- <command></code>	Add a stdio server
<code>claude mcp add --transport http <name> <url></code>	Add a remote HTTP server
<code>claude mcp add --scope user <name> ...</code>	Add globally across all projects
<code>claude mcp add --scope project <name> ...</code>	Add to shared .mcp.json for team
<code>claude mcp list</code>	List all configured servers
<code>claude mcp remove <name></code>	Remove a server
<code>/mcp</code> (inside Claude Code)	Check status, authenticate OAuth servers

3. Orchestration & Multi-Agent Frameworks

Tool	Stars	What It Does	Install
claude-flow	14K	Multi-agent swarms, RAG, 87 MCP tools, hive-mind intelligence. V2 Alpha.	<code>npm install -g claude-flow@alpha</code>
wshobson/agent29	29K	72 plugins, 112 agents, 146 skills, 79 tools across 23 categories	Clone and configure
ccpm	7K	Project management via GitHub Issues + git worktrees. /pm: commands.	Clone, use slash commands
oh-my-claudecode	7K	28 agents, 40+ skills, 31 hooks, 3-tier model routing (Haiku/Sonnet/Opus)	<code>npm install -g oh-my-claude-sisyphus</code>

Tool	Stars	What It Does	Install
claude-squad	6K	Manages multiple agents in tmux + git worktrees. Yolo mode. Works with Aider, Codex, Gemini too.	<code>brew install smtg-ai/tap/claude-squad</code>
ccswarm	110	Rust-native, specialized agent pools (Frontend/Backend/DevOps/QA), terminal UI	<code>cargo install ccswarm</code>
agentic-flow	440	66 agents, 213 MCP tools, 60-70% cost savings with intelligent LLM routing	Via npm

4. GitHub Actions (Official Anthropic)

Action	Stars	What It Does
claude-code-action	5.8K	General-purpose: answer questions, implement code, review PRs on @claude mention
claude-code-security-review	3K	OWASP Top 10 security scanning on code changes
claude-code-base-action	—	Foundation for building custom Claude Code GitHub Actions

5. SDKs & Programmatic Access

Package	What It Does	Install
@anthropic-ai/claude-code	Official CLI	<code>npm install -g @anthropic-ai/claude-code</code>
@anthropic-ai/claude-agent-sdk	Build custom agents programmatically	<code>npm install @anthropic-ai/claude-agent-sdk</code>
@botanicastudios/claude-code-sdk-ts	Fluent TypeScript SDK with streaming, callbacks	<code>npm install @botanicastudios/claude-code-sdk-ts</code>

6. Monitoring & Cost Tracking

Tool	Stars	What It Does	Install
ccusage	11K	Analyze usage by date/session/project from local JSONL. Monthly + 5-hour block reports.	<code>npm install -g ccusage</code> or <code>brew install ryoppippi/tap/ccusage</code>
Claude-Code-Usage-Monitor	7K	Real-time CLI monitor with burn rate, projections, warnings, P90 calculator	Clone and run (Python)
SigNoz	26K	Open-source observability (DataDog alternative) with dedicated Claude Code dashboard template	Docker/Helm or SigNoz Cloud

7. Configuration & Setup Tools

Tool	Stars	What It Does	Install
claude-code-templates	21K	CLI for configuring agents, commands, MCPs. 100+ AI agents. Interactive web UI.	<code>npx claude-code-templates@latest</code>
claude-code-spec-workflow	3.4K	Automated spec-driven dev (Requirements -> Design -> Tasks -> Code)	<code>npm install -g @pimzino/claude-code-spec-workflow</code>
Claude-Code-Development-Kit	1.3K	Context at scale: hooks, MCP servers, sub-agents for large projects	Clone and integrate
rulesync	800	Sync configs across Claude Code, Cursor, Gemini CLI bidirectionally	<code>npm install -g rulesync</code>
claude-code-skill-factory	520	Build and deploy production-ready skills, agents, commands at scale	Clone and use
ccexp	250	Terminal UI for exploring Claude Code configs, memory files, subagent settings	<code>npx ccexp</code>

8. Slash Command Collections

Collection	Size	Link
danielrosehill/Claude-Slash-Commands	357 commands	GitHub
qdhenny/Claude-Command-Suite	148 commands, 54 agents	GitHub
wshobson/commands	57 commands (15 workflows + 42 tools)	GitHub
hikarubw/claude-commands	Curated daily dev workflows	GitHub
vincenthopf/My-Claude-Code	Essential daily commands and workflows	GitHub

9. Discovery Platforms

Platform	Scale	URL
Anthropic Official Marketplace	Curated	/plugin > Discover (inside Claude Code)
SkillHub	7,000+ skills	skillhub.club
PulseMCP	8,600+ MCP servers	pulsemcp.com
Build with Claude	Growing	buildwithclaude.com
SkillsMP	Growing	skillsmp.com
claude-plugins.dev	Community	claude-plugins.dev
Awesome Claude	Visual directory	awesomeclaude.ai
MCP Registry	Official	registry.modelcontextprotocol.com
mcp.so	Community	mcp.so
awesome-mcp-servers	Comprehensive	GitHub

10. Awesome Lists (Meta-Directories)

Repository	Stars	Focus
hesreallyhim/awesome-claude-code	25K	The definitive list: skills, hooks, commands, orchestrators, plugins
ccplugins/awesome-claude-code-plugins	—	Slash commands, subagents, MCP servers, hooks
ComposioHQ/awesome-claude-plugins	—	Plugins with custom commands, agents, hooks, MCPs
karanb192/awesome-claude-skills	—	50+ verified skills for TDD, debugging, git, docs
wong2/awesome-mcp-servers	—	Comprehensive MCP server list (cross-platform)

11. Recommended Quick-Start

High-Impact MCP Servers (install these first)

Live documentation for any library

```
claude mcp add context7 -s user -- npx -y @upstash/context7-mcp
```

Structured problem-solving for architecture decisions

```
claude mcp add sequential-thinking -s user -- npx -y @modelcontextprotocol/server-
```

GitHub integration

```
claude mcp add github -s user -- npx -y @modelcontextprotocol/server-github
```

Browser automation for testing

```
claude mcp add playwright -s user -- npx -y @playwright/mcp@latest
```

File access control

```
claude mcp add filesystem -s user -- npx -y @modelcontextprotocol/server-filesystem
```

Top Plugin

```
/plugin marketplace add obra/superpowers-marketplace
```

```
/plugin install superpowers@superpowers-marketplace
```

Cost Monitoring

```
npm install -g ccusage  
ccusage # View your usage report
```

Configuration Explorer

```
npx claude-code-templates@latest # Interactive setup wizard
```

12. Top 15 by GitHub Stars

Rank	Tool	Stars	Category
1	everything-claude-code	~49K	Config collection
2	Context7 MCP	~46K	Documentation MCP
3	Superpowers plugin	~42K	TDD/debugging plugin
4	wshobson/agents	~29K	Agent orchestration
5	SigNoz	~26K	Observability
6	awesome-claude-code	~25K	Awesome list
7	claude-code-templates	~21K	Config/CLI
8	claude-flow	~14K	Multi-agent swarms
9	Figma MCP	~13K	Design integration
10	ccusage	~11K	Cost tracking
11	ccpm	~7K	Project management
12	oh-my-claudecode	~7K	Multi-agent orchestration
13	Claude-Code-Usage-Monitor	~7K	Cost monitoring
14	claude-squad	~6K	Multi-agent terminal
15	claude-code-action	~6K	GitHub Actions
